BACK-END: MongoDB, PostgreSQL, Node.js, Express, NPM, Mongoose, GraphQL

DEV: Mocha, Chai, Enzyme, Jest, Git, GitHub, Heroku, Travis CI, VSCode

EXPERIENCE

RECENT PROJECTS

05/18 — Present

Full-Stack Developer, CSA Box Builder, csa-box-builder.herokuapp.com

Tech stack: React, Redux, Mongo, Mongoose, Node.js, Express

A full stack app for customers of a CSA farm to specify which vegetables they get in their weekly box. The user can log in, select the week they want to set their preferences for and then choose 8 vegetables from a preset list. They can save the preferences and come back later to change them if they choose.

Full-Stack Developer, Cartas Contra Espanol, cartas-contra-espanol.herokuapp.com

React, Redux, Mongo, Mongoose, Node.js, Express

This is a learning app that uses spaced repetition to teach its user Spanish. When the user gets a question right, that question goes further down the list and will be shown less and less often if they continue to answer it correctly.

Full-Stack Developer, HearBuds, hearbuds-client.firebaseio.com

React, Redux, Mongo, GraphQL, Node.js, Express

An app that allows users to find people to attend concerts with in their local area. HearBuds displays a list of shows in the user's area and allows them to RSVP. Once they've RSVP'd they can send messages and chat with other people going to the show.

United States Antarctic Program, Inventory/Warehouse Manager

July 2016—September 2017

- Managed 5 warehouses containing food, beverage, and store merchandise at McMurdo Station, Antarctica
- Supervised supply team for warehouse pulls and deliveries and monthly audits
- Maintained an average inventory accuracy of 95%
- Facilitated the yearly off-load of resupply cargo ship, supervised team to unload over 40 shipping containers filled with food, beverage and store merchandise and receive into correct warehouse location
- Used Maximo Inventory Management Software to track inventory movement

Philos, Co-founder

October 2015—July 2016

- Organic vegetable production and distribution startup
- Grew and sold produce and plants at 2 farmers markets, 10 local restaurants and a Philos store
- Managed social media, Organic Certification application and paperwork, record keeping, market sales and daily management
